WHO WE ARE

Opening in April 2018, The Thornbury Picture House is a brand new, one-screen cinema and bar spearheaded by husband and wife team Gus Berger and Lou Rigolli. This entrepreneurial endeavor is fueled by the couple's passion for quality cinema and their determination to redefine the cinema landscape by delivering an extremely personalised, truly independent experience with a modest yet sophisticated edge.

With an overwhelming positive response by the local community in the opening months, the Thornbury Picture House is clearly etching itself into the Thornbury cultural landscape and very much establishing itself as one of the most exciting cinema experiences Melbourne has to offer.

The marquee reads:
